

Nombuso Simelane

Front-End Developer

Gauteng-Johannesburg | Email: octavia7104@gmail.com | LinkedIn: [nombuso-simelane](#)

Professional Summary

Creative and customer-centric Front-End Developer with experience in developing digital solutions and enhancing user experiences. Adept at leveraging HTML/CSS, JavaScript, and MySQL to deliver user-friendly web applications. Passionate about problem-solving, service delivery, and visualizing tech solutions to address everyday challenges.

Skills

- **Front-End Development:** HTML5, CSS3, JavaScript; built 10+ responsive websites with 95% mobile compatibility.
 - **Technical:** MySQL, Shell scripting, React Native, Next.js.
 - **Tools:** Git, Figma, Microsoft Office (Excel, Word).
 - **Soft Skills:** Remote team leadership, data-driven decision-making, agile adaptation.
-

Experience

Freelance Front-End Developer | Personal Projects

2023 – Present

- Built 10+ web applications

Donation App Developer

- Developed an app using HTML, CSS, and JavaScript to streamline the donation process.
- Added a feature that tracks donation hours using graphs and facilitates certificate generation.

Medical History App Developer

- I solely built the app using Next.js and MySQL. It allows users to manage doctor visits, prescriptions, and emergency contacts.

- Enabled PDF generation for prescriptions and provided limited access for emergency contacts.
-
